Mr. Arnold Zempel
Executive Director
Office of International Labor Affairs
U. S. Department of Labor
Room 3221 Labor Department
14th and Constitution Avenue, N. W.
Washington 25, D. C.

Dear Mr. Zempel:

Please be advised that your 15 September 1955 letter to this Agency requesting National Intelligence Survey (NIS) sections on labor and manpower has been received. However, the Chairman of the NIS Committee (the interdepartmental committee which produces and disseminates the Surveys) has advised us that additional information is required by the Committee for inter-Agency consideration of your basic request.

Therefore, it is requested that you submit to us on behalf of the Department of Labor a supplementary statement explaining the need of your Department (or its components) for the afore-mentioned NIS elements.

Upon receipt of this information, the NIS Committee will act further on your request, and we will advise you of their decision in this matter.

Very truly yours,

Chief, Liaison Division
Office of Central Reference
